

How to Apply Brodart Lifetime Duplex Book Jacket Covers

Conseils d'application

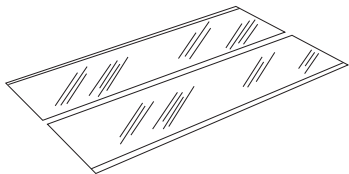

Couvre-jaquettes Ajustables,
Lifetime Duplex

Cómo Aplicar

Forros Ajustable para Libro
Lifetime Duplex

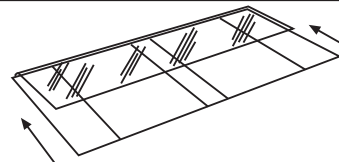

Each cover consists of two halves, one side with an adhesive strip and one plain.

Step 1

Place both halves of the cover on flat surface – film side up, paper side down.

Step 2

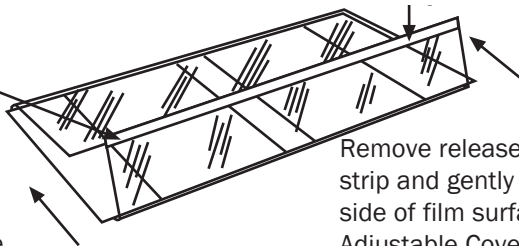

Remove dust jacket from book and insert it – printed side up – into the cover half without adhesive strip between polyester film and reinforcing paper.

Step 3

Slide the other half of the cover (with the adhesive strip) over the dust jacket, fitting both sides snugly together, with the adhesive strip side overlapping the plain side. Make sure the ends are aligned.

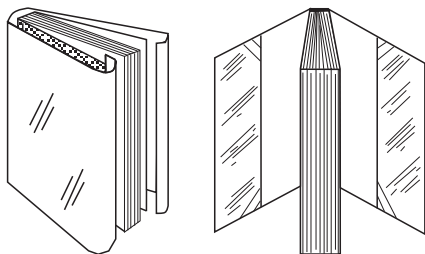

Release Liner

Step 4

Remove release paper liner from the adhesive strip and gently press adhesive area onto plain side of film surface to join halves of the Duplex Adjustable Cover together.

Step 5

Wrap the cover and the dust jacket around the book.

Step 6

NOTE:

Librarians: For general circulation books, the book jacket cover may be glued or taped to the edges of the inside covers of the book.

Collectors: To preserve the value of your book, avoid touching the book or its dust jacket with tape, glue or other adhesive.

Conseils d'application

Couvre-jaquettes Ajustables, Lifetime Duplex

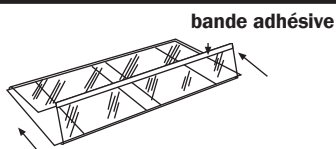

Chaque couverture se constitue de 2 moitiés, un côté adhésif, un autre non-adhésif.

1. Placez les deux moitiés du couvre-jaquette sur une surface plane - côté pellicule en dessous, côté papier au-dessus.

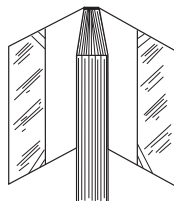

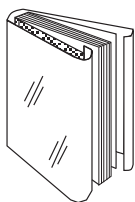

2. Enlevez la jaquette du livre et insérez-la - côté imprimé au-dessus- dans la moitié sans étiquette adhésive entre la pellicule polyester et l'endos de papier.

3. Glissez l'autre moitié (adhésive) sur la jaquette, et ajustez minutieusement les 2 parties ensemble en faisant chevaucher la partie adhésive sur celle non adhésive. Assurez-vous que les extrémités soient bien alignées.
4. Pour joindre les 2 moitiés du couvre-jaquette Ajustable Duplex, retirez la bande de protection de la partie auto-collante et pressez doucement la zone adhésive sur la partie non-adhésive de la pellicule.

5. Remplacez la jaquette protégée autour du livre.

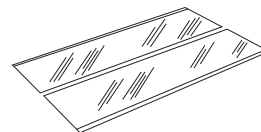

6. NOTE :
Bibliothécaires: Pour les livres circulant fréquemment, il est conseillé de renforcer l'attache du couvre-jaquette à la couverture par de la colle ou du ruban adhésif.

Collectionneurs: Pour préserver la valeur de vos livres précieux, évitez l'usage de colle, ruban adhésif ou tout autre adhésif sur le livre ou sa couverture.

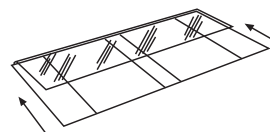

Cómo Aplicar

Forros Ajustable para libro Lifetime Duplex

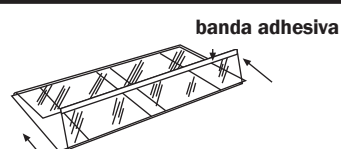

Cada forro se constituye de dos mitades, un lado adhesivo, un lado no-adhesivo.

1. Colocar las dos mitades del forro - con la cubierta hacia arriba, y la protección en papel hacia abajo - en una superficie plana.

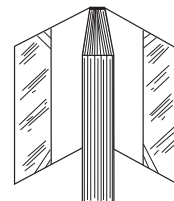

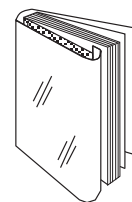

2. Quitar la sobrecubierta del libro e insertarla - lado impreso hacia arriba - entre la mitad sin la banda adhesiva entre el forro en poliéster y el papel protector.

3. Deslizar la otra mitad (adhesiva) sobre la sobrecubierta del libro y ajustar las dos mitades cómodamente con la mitad adhesiva sobre la no adhesiva. Asegurese de que los extremos estén bien alineados.
4. Para juntar las dos mitades del forro Ajustable Duplex, quitar la protección de la banda adhesiva y fijar la parte adhesiva sobre la parte no adhesiva del forro.

5. Colocar el forro y la sobreportada alrededor del libro.

6. NOTA :
Bibliotecarios: Para los libros de circulación frecuente, es preferible reforzar el mantenimiento del forro sobre las cubiertas interiores del libro con el uso de pegamento o de cinta adhesiva.

Coleccionistas : Para preservar el valor de sus libros, evitar el uso de pegamento, cinta adhesiva o todo otro adhesivo sobre el libro o su forro.
