transforming libraries

NEW!

selfCheck 3000 RFID Stations
Improved usability and modularity (RFID technology)

- Elegant design and quality materials create a timeless solution that complements any library
- quickConnect interface lets you customize your library's workflow
- Offers ample modularity
- Patrons can choose their preferred language and font size for a better experience
- Easily promote events and your collection
- Monitor can be displayed in portrait or landscape orientation
- Power: Input C13 connector. 240 VAC input, 130 watts, 50Hz.; 110 VAC for North American installs, 5 Amp fuse
- Data: 10/100 ethernet
- Touchscreen: Large 22" touchscreen; Brightness: 250 nits; HD widescreen resolution 1920 x 10800; projective capacitive touchscreen technology
- Standard PC: Windows 10 IoT Enterprise LTSC 2021 64-bit / 4GB RAM 128 GB SSD
- RFID Specification: Operating Frequency: 13,56MHz Max / transmitting power: 1.2W
- Supported tag types: ISO 15693, ISO 18000-3-A (NXP SLI, SLIx, SLIx2)
- RFID item capacity: Approx. 15 items at any one time
- Login Types: Bar code (full range of bar code types), RFID , Smartcard and manual screen entry
- Configuration and reporting is made available in real-time via optional libraryConnect LINK central management software (sold separately)
- Software is configured for connection to the library ILS/LMS through SIP2; access to the library's network via Ethernet is required
- **Right Side shelf** adds additional 13"W checkout space

Assembled. Ships from manufacturer via truck.

RFID workstation™ shielded

With focused read area and multiple read capability

- Fully shielded antenna provides concentrated detection field; only items placed directly on workstation™ antenna are detected
- Workstation™ antenna can read multiple stacked items of varying size, weight, and thickness
- RFID reader connects to PC via USB; supplied with a localized plug-in supply (110V ac/60Hz or 240V ac/50Hz)
- RF power output is 1.2 Watt; workstation™ shielded conforms to CE and FCC
- Software: staffConnect™ circ software will need to be installed on your existing PC, running Microsoft™ Windows (Windows 10 or W7 32/64); connection to the LMS/ILS is only required for some of the functionalities
- An optional receipt printer or bar code scanner (each sold separately) can be added to any RFID workstation™

1-year warranty. Ships from manufacturer.
